

Carpet and Fiber Manufacturers Approve HOST® Dry Carpet Cleaning

Here are just some of the carpet and fiber manufacturers that approve of HOST Dry Carpet Cleaning...and what they have to say:

Aladdin

Antron

Atlas

Barrett

Beaulieu

Bigelow

Bloomsburg

Brintons/U.S. Ax:

"This is a very good system, which does not wet the carpet, for use on Brintons products."

Cambridge

Columbus

Constantine

Coronet

Crossley

Cotton Incorporated:

"One of the preferred systems is HOST."

Cumberland

Dorsett

DuPont

Fabrica:

"The system that Fabrica recommends is called HOST® manufactured by Racine Industries."

Focus

Galaxy

Glen Eden

Hallmark

Harbinger:

"With the HOST Dry Extraction method, soil is removed from the carpet by millions of tiny absorbent sponges saturated with water, detergent and a small amount of solvent."

Hollytex

Horizon

Invista

J & J

Karastan:

"To avoid wet cleaning hazards, we suggest the HOST Dry Carpet Cleaning method."

Laura Ashley

Lotus

Lowe's

Masland

Merida Meridian:

"Do not steam clean or wet-shampoo...dry carpet-cleaning systems are by far the most successful method of cleaning all natural fiber rugs."

Mohawk Residential

Monterey

Pacificrest

Patcraft:

"HOST is the best and easiest method for removing spots and traffic lanes."

Patrick

Porter

Prestige Mills

Richmond

Royalty

Solutia

STAINMASTER

Stanton:

"...the proper maintenance on these products calls for Dry Clean Only."

Sunrise

United

Whitecrest

Weave-Tuft

Westwools

WundaWeve

- ◆ **HOST is safe for all types of carpet including wool, sisal and orientals.**
- ◆ **All producers of stain-resistant treatments acknowledge HOST as acceptable under their warranties.**
- ◆ **HOST has been tested and meets the requirements for WoolSafe accreditation.**

The HOST® Dry Carpet Cleaning Advantage.

HOST

STEAM CLEANING

Ease of Use

- ◆ The HOST Dry-Clean Machine™ is easy to transport.
- ◆ No chemicals to mix.
- ◆ Apply, brush, wait about an hour, and then vacuum.

- ◆ Large machine with hose and attachments can be difficult to transport.
- ◆ Chemical mixing required.
- ◆ Requires filling and dumping of tanks frequently.

Effectiveness

- ◆ Deep cleans and lifts matted pile in one easy step.
- ◆ Never any overwetting.
- ◆ No wick back of spots or dirty areas.
- ◆ Leaves no sticky residue to cause resoiling.
- ◆ Removes dust mites, mold and other allergens*.

- ◆ Does not lift pile.
- ◆ Repeated cleaning of an area can cause overwetting of carpet.
- ◆ Spots and dirty areas may wick back when carpet dries and after machine has been returned.
- ◆ Detergent residue and moisture may cause resoiling.

Drying Time

- ◆ No wet carpet.
- ◆ Rooms back in use immediately after cleaning.
- ◆ No humidity from cleaning.
- ◆ No need for furniture protectors.

- ◆ Carpet can take 6-24 hours to dry.
- ◆ Rooms out of use until dry.
- ◆ May require fans to speed up drying.
- ◆ Wet carpet may introduce unwanted humidity in the home.
- ◆ May require furniture protectors.

Safety

- ◆ Never any damage from shrinkage, split seams or mold and mildew.
- ◆ Safe for all types of carpet and rugs, including wool, sisal and orientals.
- ◆ HOST is all natural and safe for people and pets.

- ◆ Must avoid overwetting which could cause mold and mildew, shrinkage or split seams.
- ◆ Not recommended for use on silk or wool oriental rugs, hand-loomed wool rugs, or natural fibers such as sisal or jute.
- ◆ Chemicals can be an eye and skin irritant.
